Submitted with reference to the 1st Councillor's note dy 28-4-09

The financial condition of the Seringapatam Mlty is not in a satisfactory state. The ordinary expenditure during the current year exceeds the ordinary revenue expected by Rs 1264/- and the closing balance falls short of the prescribed minimum by Rs 1,285/- as explained in page 10 of the note. No costly schemes have been undertaken nor is there any extra ordinary expenditure during the current year In the [redacted] sanctioning the budget estimates of the current year Govt observed as follows -

Rs 10,904
In: 9,640
1264

"The closing balances in the Seringapatam Municipalities are less than the prescribed minimums by ..

the Pres^t should maintain by curtailing the expenditure, collecting all recoverable arrears promptly and husbanding the resources of the Municipalities as far as possible."

In consideration of the poverty &c. of the Municipality, it was ~~expressed~~ requested in the last Representative Assembly that the revenue on lands situated within the Municipal limits might be credited to Municipal funds and this fact was noted by Govt Such being the case, it seems scarcely possible that the Municipality can spare any cash from its resources for the water-supply project unless additional taxation is resorted to ~~upon~~.

Mudgere

referred to in the 1st Councillor's note, is expected to cost Rs 61,000/-
The utmost that may perhaps be expected of the Municipality is, that it should, as has been done in other cases, be made to bear one-half of the cost of the scheme i.e. Rs 30,500/-, the other half being borne by Govt
This amount will have to be advanced as a loan by Govt
Even if the loan should bear no interest, the annual instalment for its repayment in 20 years would be Rs 1,525/-
In its present [condition] the Municipality is quite unable to set apart this large amount annually and thus there is no chance of the loan being repaid at all.
If [illegible] we do see good to the [illegible]
